MAT 100	MAT 100	College Algebra	3
PSY 201	PSY 201	Introduction to Psychology	3
SCI 251	SCI 251	Microbiology	4

Total Fulfilled Requirement Credits: 30

Comments:

Transfer of Credits
Only official transcripts are accepted as proof of completion of previous coursework at other institutions. The deadline for submission of official transcripts for previously completed coursework is specified on the Transfer of Credit page on the College website and will be no later than five (5) weeks prior to the first day of the semester; verify deadlines on the Transfer of Credit page.
https://nightingale.edu/admissions/credit-transfers.html

To be considered for transfer of credit, general education (GE) and technical courses must be completed at an institution of higher learning accredited by an accrediting agency recognized by the U.S. Department of Education, the Council for Higher Education Accreditation (CHEA), or certain non-U.S. institutions of higher learning. See the requirements for acceptable transfer credits below.

Transfer Credit Appeal
Upon completion of an official transcript review, learners will receive a Transfer Credit Evaluation (TCE). If there is a particular course to be reconsidered that is not present on the TCE, learners may contact the Credit Appeal office (creditappeal@nightingale.edu) to submit a Transfer Credit Appeal form with a corresponding syllabus from the institution where the course was completed.
https://nightingale.edu/admissions/credit-transfers.html#:~:text=Transcripts%40nightingale.edu-,Transfer%20Credit%20Appeal,-Upon%20completion%20of

The deadline for the submission of credit appeals is 5:00 p.m. Mountain Time twenty-four (24) days prior to the start of an academic semester.

Previously Evaluated Coursework
Coursework that has been evaluated in the past is documented in our TES database. You can look up your institution and courses here. This is not an exhaustive list, and some courses may have additional requirements that will be subject to change at any time.
https://tes.collegesource.com/publicview/TES_publicview01.aspx?rid=3c4baa24-7b5f-489b-97f1-a5725ce83a15&aid=b4534245-c534-4347-a1da-ae53e08ac960

General Education (GE) Courses
The College will consider GE academic credits earned at other post-secondary institutions for transfer when the following conditions are met:

1. A grade of “C” or better must be earned in all courses.
2. Human anatomy, human physiology, mathematics, and pathophysiology courses must be completed within seven (7) years preceding the anticipated start date at the College.
3. Courses must be at college level.
4. All other general education courses do not have a recency requirement for transfer of credit.
5. Human anatomy, human physiology, and microbiology must have a lab component to be considered for transfer. Courses that do not have a lab component do not qualify for transfer of credit.

Note1: The College does not grant transfer of credit for duplicate coursework.

Note2: The seven (7)-year course recency requirement for human anatomy, human physiology, mathematics, and pathophysiology does not apply to the College's post-licensure programs.

Nursing Education Courses

The College will consider nursing academic credit earned at other post-secondary institutions for transfer when the following conditions are met:

1. The course was completed at an associate or higher-level RN program, accredited by the National League for Nursing Commission for Nursing Education Accreditation (NLN CNEA), Accreditation Commission for Education in Nursing (ACEN), the Commission on Collegiate Nursing Education (CCNE), or certain equivalent non-U.S. nursing programs.
2. The course content, learning objectives, and outcomes must closely match or exceed those of the corresponding course offered at the College.
3. The course credit load must be equal to or more than that of the corresponding course offered at the College.
4. The course was completed within the last three (3) years with a grade of "B-" or better, and the content is not currently outdated or obsolete.
5. The credit transferred for any single course may be no greater than the credit given in the corresponding course at the College.
6. The learner must pass the skills and knowledge assessments as prescribed by the program of study, or, if unsuccessful, complete prescribed remediation activities.
7. Advanced Placement learners seeking transfer of credit for BSN 206, 225, and/or 215 must take the Medical Dosage Calculation (MDC) self-paced, non-facilitated online course and/or entrance exam HESIs during the admissions process.

Learners are encouraged to audit courses for which the transfer of credit has been granted.

The College reserves the right to accept or reject any or all credits earned at other post-secondary institutions. At least 50% of the total semester credits published in the corresponding program's Curriculum Plan must be completed at the College. As an exception, LPN/LVN learners granted advanced placement in the BSN Programs or the LPN to ASN Program must complete a minimum of 50% of nursing core coursework at the College to earn the degree.

Transferability of academic credits earned at the College is at the discretion of the receiving institution. The College does not imply, promise, or guarantee transferability of any credits earned at the College to any other post-secondary institution. See the Nightingale College Transfer of Credit policy for more information:

https://nightingale.edu/catalog/registration-information/transfer-of-credit/index.html.
